

Brintech Speaker Biography

Charlie Lane Senior Consultant

Charlie Lane is a Senior Consultant for Brintech. His 30 years of banking and technology experience began when Charlie started his career in south Florida managing a multi-bank technology division. He held direct responsibilities for managing operations and implementing new core systems and item capture programs.

He has spent 17 years of his career with a major software company. During his tenure there, he held various positions, including Director of Consulting and Planning, and Director of Automation Services, focused on the delivery of integrated solution and financial performance improvements. He has extensive experience in item capture, integrating core systems, ATM and Debit Card processing and justification, management and efficiency consulting, and project management.

Charlie also has extensive consulting experience with both domestic and international banks ranging in size from several-million dollar banks to multi-billion dollar holding companies.

He has assisted institutions with implementation management, system performance projects, and performance improvement designs. Charlie uses his extensive experience with bank technology and performance to assist Brintech clients with implementing and maximizing performance of their technology solutions.
